Our Vision

As an emerging co-educational institution, we envision to nurture autonomous thinkers by cultivating a spirit of critical inquiry, scientific temperament, and reverence for conventional intellectual and moral values. Our aim is to foster the generation of innovative knowledge through sustained exploration, learning, and creative pursuits.

Mission

Our mission is to impart a comprehensive and transformative education that empowers students with essential competencies. We endeavour to equip them to survive, grow, and lead effectively in an increasingly interconnected and dynamic global landscape.

Introduction of the College

An educational institution is not merely a structure of brick and mortar; it is a legacy of learning and blessing for the community it serves. Situated amidst the verdant landscape of Koti village in Junga sub-tehsil, Govt. Degree College Chail-Koti was established on 1 June 2014 as a co-educational institution. Nestled among majestic deodar trees, flourishing apple orchards, and variety of wild flowers, the college campus presents a scenic and serene milieu that is naturally advantageous to attentive learning. The college commenced its expedition with 39 students, initially offering the Arts stream with English, Hindi, Political Science, Economics, Sociology, History, Mathematics and Physical Education. The introduction of commerce stream in June 2015 marked a significant milestone in the academic evolution of the college, broadening the spectrum of subjects available to students. Recognizing Music as the nourishment of the soul and a profound means of connecting with divine, the college takes pride in introducing Music as an additional subject in the Arts Stream. In the initial phase, classes were held in private premises generously provided without rent by Shri O P Sharma of Koti. Owing to persistent and unwavering efforts of the Principal and faculty, the college began to take a permanent shape as a Gram-Sewak Hut, a Guard Hut, and the building of Primary Health Centre (PHC) were handed over to the institution by the respective departments to ensure the smooth functioning of academic activities. A landmark moment came with the laying of the foundation stone for the college building by Lt. Shri Virbhadra Singh, the then Chief Minister of Himachal Pradesh, in the esteemed presence of local MLA Sh. Anirudh Singh, on 17 May 2015, near the Govt. Primary School, Koti. Additionally, the existing Primary School building was allocated to the college on the same day to enable the uninterrupted continuation of academic pursuits. Following the clearance of forest land in favour of Education Department under the FCA Act 1980, the construction work of the college building commenced in July 2020. The edifice was completed in March 2024 and formally inaugurated by Honorable Chief Minister, Sh. Sukhvinder Singh Sukhu, in the presence of the Honorable Minister for Panchayati Raj and Rural Development, Sh. Anirudh Singh, in November 2024. We express our sincere gratitude to Honorable Chief Minister and Panchayati Raj Minister for removing the solid handicap of the college by handing over the newly constructed building to us. We take immense pride in saying that now our institution has a modern and spacious building, complemented by a green campus and extensive playground that facilitates the conduct of diverse range of sports activities throughout the year. We have modern class-rooms, ICT labs, library, girls' common room and canteen. After having a capacious physical infrastructure, we are planning to introduce new add-on courses keeping in view the requirements and the interests of the students. Since its inception, the college is committed to provide the students with quality education with its motto of Gyanam Param Balam (Knowledge is Supreme Power). In order to achieve our goal and ensure the all-round development of the students, we offer programs such as NSS and organize various co-curricular and extra-curricular activities throughout the year along with regular academic goings-on.

Besides, we have different clubs and societies such as Red Ribbon club, Eco-club and Literary club that ensure students' participation in social and community services and keep them aware of the current world happenings. As a team, we are moving ahead with the aim to make students better equipped to face the challenges of life, both professionally and personally. Curriculum and Credit Framework for Undergraduate Programmes (For First & Second Semester Students)

Introduction

The *National Education Policy* (NEP) 2020 (hereafter referred to as NEP or Policy) recognizes that higher education plays an extremely important role in promoting human as well as societal well-being and in developing India as envisioned in its Constitution - a democratic, just, socially conscious, cultured, and humane nation upholding liberty, equality, fraternity, and justice for all. It notes that “given the 21st-century requirements, quality higher education must aim to develop good, thoughtful, well-rounded, and creative individuals”.

In accordance with the NEP 2020, the UGC has formulated a new student-centric “Curriculum and Credit Framework for Undergraduate Programmes (CCFUP)” incorporating a flexible choice-based credit system, multidisciplinary approach, and multiple entry and exit options. This will facilitate students to pursue their career path by choosing the subject/field of their interest.

Transformative Initiatives Impacting Undergraduate Education

The National Education Policy (NEP) 2020 envisages several transformative initiatives in higher education. These include:

- **Holistic and Multidisciplinary Education:** Introducing an educational approach that develops all human capacities—intellectual, aesthetic, social, physical, emotional, ethical, and moral—in an integrated manner. This includes building soft skills such as complex problem-solving, critical and creative thinking, and communication, alongside rigorous specialization in chosen fields of learning.
- **Flexible Curricular Structures:** Adopting a flexible curriculum to enable creative combinations of disciplinary areas. This allows students to study in multidisciplinary contexts and provides a wide array of course options, in addition to deep, rigorous specialization in specific subjects.

- **Multiple Entry and Exit Options:** Offering undergraduate degree programs of either a 3-year duration that feature flexible entry, exit, and re-entry points. Students will receive appropriate certifications based on their completed duration:
 - **AUG Certificate** after completing 1 year (2 semesters) of study in their chosen fields.
 - **AUG Diploma** after completing 2 years (4 semesters) of study.
 - **A Bachelor's Degree** after completing a 3-year (6 semesters) program of study.
- **Integration of Credit-Based Projects:** Including credit-based courses and projects focused on community engagement and service, environmental education, and value-based education.
- **Comprehensive Environmental Education:** Expanding environmental studies to cover critical areas such as climate change, pollution, waste management, sanitation, biodiversity conservation, biological resource management, forest and wildlife conservation, and sustainable development and living.
- **Value-Based Education:** Cultivating humanistic, ethical, constitutional, and universal human values. This includes instilling principles of truth, righteous conduct, peace, love, non-violence, scientific temper, citizenship values, and essential life skills.
- **Community Engagement:** Making lessons in service and active participation in community service programs an integral component of a holistic educational experience.

Major discipline is the discipline or subject of main focus and the degree will be awarded in that discipline. Students should secure the prescribed number of credits (about 50% of total credits) through core courses in the major discipline.

Minor discipline helps a student to gain a broader understanding beyond the major discipline. For example, if a student pursuing an Economics major obtains a minimum of 12 credits from a bunch of courses in Statistics, then the student will be awarded B.A. degree in Economics with a Minor in Statistics.

Definitions, Eligibility, and Duration of the Programme

Semester/Credits:

- A semester comprises 90 working days and an academic year is divided into two semesters.
- The winter vacation comprises five weeks. Internship/apprenticeship/work-based vocational education and training can be carried out during the winter vacation, especially by students who wish to exit after two semesters or four semesters of study. The HEIs can decide on the courses to be offered in the winter vacation depending on the availability of faculty and the number of students.

Awarding UG Certificate, UG Diploma, and Degree

UG Certificate: Students who opt to exit after completion of the first year and have secured 44 credits will be awarded a UG certificate if, in addition, they complete one vocational course of 4 credits during the vacation of the first year. These students are allowed to re-enter the degree programme within three years and complete the degree programme within the stipulated maximum period of seven years.

UG Diploma: Students who opt to exit after completion of the second year and have secured 86 credits will be awarded the UG diploma. These students are allowed to re-enter within a period of three years and complete the degree programme within the maximum period of seven years.

3-year UG Degree: Students who wish to undergo a 3-year UG programme will be awarded UG Degree in the Major discipline after successful completion of three years, securing 128 credits and satisfying the minimum credit requirement.

University) can transfer their admission to CDOE at any point during a semester. Such a student, however, shall have to pay the complete Semester fee of the concerned semester as well, irrespective of the duration of the semester gone by. Students pursuing their 3-year Undergraduate programme from CDOE can be migrated or admitted as regular students to colleges against vacant seats at the beginning of the semesters.

Inter-Institution Mobility

The HPU-UGP enables students to engage in inter-institutional mobility, both for incoming and outgoing students. For this, HPU will take into account the credits that the student has in their ABC. For an incoming student, the following should be observed: a. b. c. 16. The entry is subject to the availability of seats in the concerned discipline. The student must fulfil all the academic prerequisites of the relevant discipline. HPU will award a degree to a student only when the student has completed at least 60% of the credits for core courses offered by HPU.

Academic Bank of Credits (ABC)

The HPU-UGP is directly connected to the Academic Bank of Credit (ABC) as notified by the UGC. All credits a student earns at the end of an examination in HPU-UGP will be deposited in the ABC by the university. As such, a student under HPU-UGP must register for the ABC as notified by the regulatory agencies.

Choice Based Credit System (CBCS) for 2nd and 3rd Year

From the session 2013-14, the Himachal Pradesh University adopted the UGC system of CBCS with an aim of improving the quality of education and the employability of students. It allowed the students to choose their subjects from a wide range of inter-disciplinary courses which are at par with other universities and colleges as approximately 70% syllabus was same across the universities of the country and only 30% deviation was allowed to the affiliating University. From the session 2018-19, the University adopted the Annual system of examination keeping in mind the difficult topographical terrain of the state.

Some of the important features of the Annual system are as follows:

1. It is an annual system.
2. A candidate has to choose either the stream of Arts or Commerce.
3. Courses of a subject are of three types- Core courses (CC), Elective Courses (EC) and Ability Enhancement Courses (AEC).
 - Core Courses: Core Courses comprises of two types- Compulsory Courses and Discipline Specific Courses (DSC). The students will have to study English and Hindi in first two years as compulsory courses. A student is also required to study two DSCs in the first two years of the TDC Programme.
 - Elective Courses (DSE): A course which can be chosen from a pool of courses and which may be very specific or specialized or advanced or supportive to the discipline/subject of study or which provides an extended scope or which enables an exposure to some other discipline/subject/domain or nurtures the candidates' proficiency/skill is called an elective course. A student is required to study 4 Discipline Specific Electives (DSE) and two Generic Elective (GE) courses of Inter-Disciplinary nature in the fifth and the sixth semesters/third year. Generic Elective courses are to be chosen from the pool of courses other than the Discipline Specific Courses already opted by the students.

- Ability Enhancement Courses: The Ability Enhancement Courses are of two kinds: Ability Enhancement Compulsory Courses (AECC) and SEC/ AEEC (Skill Enhancement Courses/ Ability Enhancement Elective Courses). A Student is required to study 2 AECC Courses in first year itself out of Environmental Science (EVS)/ English Communication/ Prayogenmulak Hindi/ Modern Indian Languages (MIL) where EVS is compulsory. A student is also required to choose 2 SEC/ AEEC courses in 2nd year and remaining 2 SEC/ AEEC courses in 3rd Year. AECC Courses are the courses based upon the content that leads to knowledge enhancement. The SEC Courses are value-based and /or skill-based and are aimed at providing hands-on-training, competencies, skills, etc. For more details go to page number 12-13.
4. All the courses are defined with a title and a code. These are required at the time of filling online examination form. A wrong entry of the subject code or the paper title will be detrimental like delaying the results. A list of these courses is provided at the end of Prospectus. Each of these courses are awarded a fix number of Credits which is either 6 or 4. A student has to earn 132 Credits in three years (44 Credits in one year i.e. $44 \times 3 = 132$) to earn the degree of Under-Graduation (UG). For the purpose of credit determination, instruction is divided into three components i.e. lectures, tutorials and practical-work.
- One lecture as well as one tutorial of one hour each in a week is considered as one credit.
 - One practical of two hours in a week is considered as one credit.
